February 26

The field trip yesterday was so much fun! One of my favorite parts was the audience. It was a great event, watching the little kids bob their heads up and down while the Russian music was playing. A lot of the Russian music would speed up in the middle of the song.

Part of the program was music from Spain. There also was African music. The African music was probably my favorite type of music. The main vocalist said he was cool because of the hat he was wearing. He also said that when we get home, he could just imagine hundreds of kids asking their moms for hats and then a bunch of them wearing one. The field trip will become a nice memory.
